IN THE CLAIMS

Please amend the claims as follows:

- 1. (Currently Amended) A method for producing a saponified ethylene-vinyl acetate copolymer, which comprises saponifying an ethylene-vinyl acetate copolymer in an alcohol-based solvent in the presence of an alkali catalyst until its saponification degree is at least 98 mol%, wherein from 100 ppm to 15,000 ppm of water (based on the ethylene-vinyl acetate copolymer) is added to the alcohol-based solvent, and wherein the ethylene content in the ethylene-vinyl acetate copolymer is not more than 55 mol %.
- 2. (Original) The method according to claim 1, wherein a first solution comprising an ethylene-vinyl acetate copolymer and an alcohol-based solvent and a second solution comprising an alkali catalyst and an alcohol-based solvent are introduced into a saponification reaction column through an upper portion thereof, and a vapor of an alcohol-based solvent is introduced into the saponification reaction column through a lower portion thereof.
- 3. (Original) The method according to claim 2, wherein water is fed into the saponification reaction column with the second solution.
 - 4. (Cancelled)
 - 5. (Cancelled)
- 6. (Previously presented) The method according to claim 1, wherein from 100 ppm to 3000 ppm water (based on the ethylene-vinyl acetate copolymer) is added to the alcohol-based solvent.
 - 7. (Cancelled)
- 8. (Currently Amended) The method according to claim 1, wherein the ethylene content in the ethylene-vinyl acetate copolymer is from 20 mol % to 55 70 mol %.

- 9. (Previously presented) The method according to claim 1, wherein the alcohol in the alcohol-based solvent is one or more selected from the group consisting of methanol, ethanol, n-butanol, and t-butanol.
- 10. (Previously presented) The method according to claim 1, wherein the alkali catalyst is selected from the group consisting of sodium hydroxide, potassium hydroxide, and alkaline metal alcoholate.
- 11. (Withdrawn) In a method of manufacturing a film, sheet, package, and/or laminate comprising saponofied ethylene-vinyl acetate, the improvement comprising producing the saponofied ethylene-vinyl acetate according to claim 1.
- 12. (Withdrawn) In a method of manufacturing a film, sheet, package, and/or laminate comprising saponofied ethylene-vinyl acetate, the improvement comprising producing the saponofied ethylene-vinyl acetate according to claim 2.
- 13. (Withdrawn) In a method of manufacturing a film, sheet, package, and/or laminate comprising saponofied ethylene-vinyl acetate, the improvement comprising producing the saponofied ethylene-vinyl acetate according to claim 3.
- 14. (Withdrawn) In a method of manufacturing a film, sheet, package, and/or laminate comprising saponofied ethylene-vinyl acetate, the improvement comprising producing the saponofied ethylene-vinyl acetate according to claim 4.
- 15. (Withdrawn) In a method of manufacturing a film, sheet, package, and/or laminate comprising saponofied ethylene-vinyl acetate, the improvement comprising producing the saponofied ethylene-vinyl acetate according to claim 5.
- 16. (Withdrawn) In a method of manufacturing a film, sheet, package, and/or laminate comprising saponofied ethylene-vinyl acetate, the improvement comprising producing the saponofied ethylene-vinyl acetate according to claim 6.

Application No. 09/933,839 Reply to Office Action of November 6, 2003

- 17. (Withdrawn) In a method of manufacturing a film, sheet, package, and/or laminate comprising saponofied ethylene-vinyl acetate, the improvement comprising producing the saponofied ethylene-vinyl acetate according to claim 7.
- 18. (Withdrawn) In a method of manufacturing a film, sheet, package, and/or laminate comprising saponofied ethylene-vinyl acetate, the improvement comprising producing the saponofied ethylene-vinyl acetate according to claim 8.
- 19. (Withdrawn) In a method of manufacturing a film, sheet, package, and/or laminate comprising saponofied ethylene-vinyl acetate, the improvement comprising producing the saponofied ethylene-vinyl acetate according to claim 9.
- 20. (Withdrawn) In a method of manufacturing a film, sheet, package, and/or laminate comprising saponofied ethylene-vinyl acetate, the improvement comprising producing the saponofied ethylene-vinyl acetate according to claim 10.
